The number of individuals carrying on a business includes proprietors, officers, partners, and associates actively engaged in such business and the individuals employed regularly or on a part-time basis. Individuals employed by an owner or proprietor of a business who work entirely outside the corporate limits of the City shall not be counted,

To calculate the number of individuals: take the total number of full-time employees and average the number of part-time employees to equal the time of a full-time employee.

* Example: If your business is a sole proprietor with only 1 owner working and employing 2 part-time individuals, the total number of individuals employed would be 2 and the fee would be \$47.50

** Example: If your business has 2 owners, 3 full-time employees and 3 part-time employees, the total number of individuals employed would be 7 and the fee would be \$110.
